

# IRON ORE SIZING

Sixty-eight (68) High Speed (3600 RPM) Model K48-120A dry screening machines are operating in a desert environment with ambient temperatures exceeding 110° F. This 5,000 MTPH North African iron ore facility is closing a dry aerofall mill system with forty-eight (48) units at 10 mesh with 50 percent oversize up to 1/2". An additional twenty (20) units are sizing reground magnetic middlings at 30-40 mesh.

*(See schematic on reverse side.)*
